

VISUAL BASIC 6 PROGRAM FOR AUTOMATIC DATE ACTUATION

This programmed is written in Microsoft Visual Basic-6 for deleting a file & stop working a Software on a particular Date as mention in the programmed.

```
Option Explicit
Dim Q, North
Dim A As String
```

```
Private Sub Timer1_Timer()
'Label1.Caption = Date
If Dir("C:\Soft", vbDirectory) = vbNullString Then Mkdir ("C:\Soft")           Check & Make A Directory
North = Shell("cmd /c copy /y D:\Heater\Heater.exe C:\Soft\", vbHide)         Copy File in the Directory
```

```
Q = 0
If Date = "1/26/2019" Then GoTo X1 Else
If Date = "2/23/2019" Then GoTo X2 Else
